Research Manitoba
Case Study

How Research Manitoba Streamlined and Unified Health Research Reviews Across Manitoba using Infonetica Ethics.

Research Manitoba

Quick Wins in the First Three Months

427

427 applications submitted

168 applicants trained

103 reviewers registered

Faster approvals

Why Research Manitoba chose Infonetica Ethics

| Before	After
Heavy vendor dependence	✦ Fully configurable by Research Manitoba
Slow progress and updates	✦ Flexible, intuitive design
Disconnected review processes	✦ Reduced long-term costs

"Configurability was key. We wanted a system we could manage ourselves – to be nimble, responsive, and not wait on a vendor every time something changed."

Elizabeth Lylyk, Director RITHIM, Research Manitoba

One Application. Three Integrated Streams.

Single harmonised application submitted

Ethics → Privacy → Institutional Review

Distinct logic, timelines, and stakeholders

"It's not just three parallel reviews – we've essentially built six interconnected review cycles into the system, and we've done it all through configuration."

Elizabeth Lylyk, Director RITHIM Research Manitoba

Collaborative Build

End Users see the Difference

User-Friendly

Time-Saver

Multi-Site Coordination

"Moving to Infonetica opened up an infinite number of possibilities. With Infonetica Ethics, we weren't just building a system – we were reimagining how we work."

Elizabeth Lylyk, Director RITHIM,
Research Manitoba

About Research Manitoba

Research Manitoba is a Canadian provincial research agency that promotes, supports, and coordinates the funding of research excellence and innovation in health, natural and social sciences, engineering and the humanities in Manitoba. Research Manitoba supports local talent development by providing research support to early career researchers and graduate students, along with fostering strategic partnerships to strengthen research and innovation in Manitoba.
